

Accessibility Statement

22 King David Street, Jerusalem, Israel

www.ambassadorsplace.com

Effective Date: 01/09/2026

Last updated: 01/09/2026

1. Our Commitment to Accessibility

Ambassador's Place, operated by King David Cornerstone Ltd at 22 King David Street, Jerusalem, Israel, is committed to ensuring that our facilities, services, and digital platforms are accessible to all clients and visitors.

2. Physical Premises

Ambassador's Place is a boutique conference and meeting centre housed in a historic building at 22 King David Street, Jerusalem. We recognise that historic buildings can present accessibility challenges, and we work to accommodate the needs of all our clients wherever possible.

Our current provisions include:

- Reception staff available to greet and assist all visitors upon arrival, including those with accessibility requirements.
- Well-lit common areas including the reception and stairway.
- Assistance animals, including guide dogs and other registered service animals, are welcome on the premises.

Please note that our premises are not currently wheelchair accessible. The building does not have step-free access to the meeting suites, and we do not have wheelchair-accessible toilet facilities. We regret any inconvenience this may cause and encourage guests with mobility requirements to contact us in advance so we can advise appropriately.

If you have specific accessibility requirements, we strongly encourage you to contact us ahead of your visit so that we can make the appropriate arrangements and ensure your experience is comfortable and productive.

3. Website Accessibility

Our website at www.ambassadorsplace.com is built on the Wix platform. We aim to meet the Web Content Accessibility Guidelines (WCAG) 2.1 at Level AA. The following measures have been taken to improve accessibility:

- Keyboard navigation is supported throughout the site, without requiring use of a mouse.
- Sufficient colour contrast between text and background elements to assist users with visual impairments.
- Descriptive alternative text provided for images and non-text content.
- Clear and consistent navigation structure across all pages.
- Text can be resized using standard browser controls without loss of content or functionality.
- Forms and interactive elements are labelled to support screen reader users.

As our website is hosted on the Wix platform, some aspects of accessibility are managed by Wix's own systems and updates. Please refer to Wix's accessibility policy at www.wix.com for further details on the steps they take to support accessibility.

4. Online Booking Platform

All reservations at Ambassador's Place are managed exclusively through our authorised booking platform, Book a Space (www.bookaspace.com). The accessibility of the Book a Space platform is the responsibility of its operator.

Where third-party components or platforms are used on our website, such as the Book a Space booking platform or Wix-integrated tools, these are not directly under our control and may present challenges that we are not able to remedy independently.

5. Browser and Assistive Technology Compatibility

Our website has been designed to be compatible with the widest possible range of browsers and assistive technologies, including Chrome, Firefox, Microsoft Edge, and Safari. We have also addressed JAWS and NVDA assistive technologies for Windows, and Voiceover on macOS and iOS.

6. Known Limitations and Disclaimers

Despite our efforts to ensure accessibility, there may be some limitations both on our website and within our physical premises that we have not yet been able to fully address. However we are committed to resolving any accessibility issue brought to our attention as quickly as reasonably possible. Please contact us if you encounter any barrier.

7. Statement Amendments

We may update this Accessibility Statement from time to time by posting a new version on our website. You should check this page occasionally to ensure any changes are acceptable to you. This statement was last updated in 2026.

8. Contact

If you have any questions about this Accessibility Statement, require assistance, or wish to report an accessibility barrier, please contact us.
